

8-Port Managed Gigabit Switch

CNGE8MS/DIN

The ComNet CNGE8MS/DIN is an 8-port Managed Ethernet Switch designed to reliably operate in harsh, environmentally challenging applications. It features eight (8) 10/100/1000BASE-T(X) ports. Exclusive to ComNet is X-Ring Pro, a feature that protects the network from interruptions or temporary malfunctions with fast recovery technology. Redundant DC inputs are included for uninterrupted operation in the event of a power supply failure. The electrical ports support the 10/100/1000Mbps Ethernet IEEE802.3 protocol, and auto-negotiating and auto-MDi/MDiX features are provided. These network-managed layer 2 switches are electrically compatible with any IEEE802.3 compliant Ethernet device. The CNGE8MS/DIN is DIN-rail or wall-mountable.

FEATURES

- > 8 10/100/1000T(X) Ports
- IGMP v1/v2 (IGMP snooping support) for filtering multicast traffic & Port Trunking for ease of bandwidth management
- > STP/RSTP/MSTP supported
- Designed to meet full compliance with the environmental requirements (ambient operating temperature, mechanical shock, vibration, humidity with condensation, high-line/lowline voltage conditions and transient voltage protection) of NEMA TS-1/TS-2 and the Caltrans Specification for Traffic Signal Control Equipment.
- > Operating Temperature: -40° C to +75° C.
- > Fastest Redundant Ethernet Ring: ComNet X-Ring Pro.
 Recovery time <30ms, with > 250 switches within the ring
- Web-based and Telnet configuration with support for network monitoring through ComNet eVision utility
- Supports LLDP (Link Layer Discovery Protocol)
- Event notification through Syslog, RMON, SNMP trap, and Relay Output
- > Port lock to prevent access from unauthorized MAC address
- > SNMP v1/v2c/v3 for secure network management
- > IPV6 internet protocol (latest version)
- > Provides SSH/SSL protocol for enhanced network security
- Rigid aluminum housing design provides for DIN-Rail or wall mounting
- › Lifetime Warranty

APPLICATIONS

- > ITS Traffic Signalization & Surveillance/
- > Incident Detection Networks
- Industrial and Factory Automation
- Integrated IP-Video and Data Transmission Networks
- Industrial Security Access Control Systems

SOFTWARE FEATURES

- > STP/RSTP/MSTP (IEEE 802.1D/w/s)
- X-Ring Pro Redundant Ring: Recovery time <30ms, with over 250 switches within the ring
- > 9k Jumbo frames supported
- > Quality of Service (802.1p) for Real-Time Traffic
- > VLAN (802.1Q) with VLAN Tagging and GVRP Supported
- › IGMP/MLP Snooping, Multicast Filtering
- > Port Configuration, Status, Statistics, Monitoring & Security
- > DHCP / Client support
- › Port Trunk Support
- > TCP Modbus
- › SMTP Client
- › Q-in-Q

SPECIFICATIONS

Connectors

```
10/100/1000BASE-T(X)
Power Connector
```

Switch Properties

Switching Latency Switching Bandwidth Max. VLANs Available **IGMP Multicast Groups** Port Rate Limiting MAC Table Packet Buffer Size **Priority Queues** Processing Jumbo Frame

7 µs 16 Gbps 256 256 User Defined 8000 MAC addresses available 4.1 Mbit Δ Store-and-Forward

8 × RJ-45 Ports with Auto MDI/MDIX

Terminal Block

Up to 9,216 Bytes

For fault event alarming To record and view events

For traffic monitoring

Security Features

Enable/Disable Ports, MAC based port security Port-Based Network Access Control: 802.1x VLAN (802.10): To segregate and secure network traffic SSH/SSL SNMPv3 Encrypted Authentication and Access Security **DHCP Option82**

Alarms & Monitoring Systems

ORDERING INFORMATION

Part Number	Description
CNGE8MS/DIN	(8) 10/100/1000BASE-T(X) port managed switch
Included Accessories (North America Only)	DC Plug-in Power Supply, 90-264 VAC, 50/60 Hz (Included, for benign 0 to 50°C applications only. Hardened power supply available, consult factory)
Options	[2] Add suffix '/C' for Conformally Coated Circuit Boards to extend to condensation conditions (Extra charge, consult factory)

In a continuing effort to improve and advance technology, product specifications are subject to change without notice.
